

ISO 9001:2000 Certified

The **PIN Master** is the heart of your distributed vending **SYSTEM** which vends PIN numbers for prepaid cell phones. Technik provides the PIN Master vending machines and software to run the system; add your own computer and you have your very own PIN distribution system, with no third party involvement. The software incorporates filters which permit loading PINs into the system from various carriers in various formats. It also provides a host of record keeping and inventory options. The centralized inventory means less visits to vending locations and lower inventory costs!
